

## About Erasmus+

Erasmus+ is the EU's programme to support education, training, youth and sport in Europe. The 2021-2027 programme places a strong focus on social inclusion, the green and digital transitions, and promoting young people's participation in democratic life.

It supports priorities and activities set out in the European Education Area, Digital Education Action Plan and the European Skills Agenda. The programme also:

- supports the European Pillar of Social Rights
- implements the EU Youth Strategy 2019-2027
- develops the European dimension in sport

Erasmus+ offers mobility and cooperation opportunities in:

- higher education
- vocational education and training
- school education (including early childhood education and care)
- adult education
- youth
- and sport

Detailed information on these opportunities, including eligibility criteria, is available in the <https://erasmus-plus.ec.europa.eu/programme-guide/erasmusplus-programme-guide>

# Erasmus+

## Context:

**Programme**—Erasmus +;

**Key Action**—Cooperation for innovation and the exchange of good practices;

**Action**—Strategic Partnerships;

**Which field is the most impacted**—Strategic Partnerships for the education of adults;

**Call**— 2022

## The Green angels project

The GREEN ANGELS project aims at building capacities for self-entrepreneurship and promotes social inclusion of migrants in EU countries by empowering them to enter the job market through newly acquired or updated competencies and skills. More precisely, the **project supports** the re-skilling or up-skilling of migrants' basic, transversal, green and entrepreneurial competencies through a new upskilling pathway to build their capacities as Social entrepreneurs while fulfilling a double objective: to promote the employability of migrants, and to meet the needs of their local communities.

Additionally, the transversal area of the project will promote knowledge and competences for an environmental-friendly approach to small scale business activities, in line with the needs and requirements of the European Green Deal Communication [https://ec.europa.eu/info/strategy/priorities-2019-2024/european-green-deal\\_en](https://ec.europa.eu/info/strategy/priorities-2019-2024/european-green-deal_en). There will be a transversal module focused only on the sustainable, green and sustainable materials and products that may be used in the delivering of the service, as well as indications on the differentiated waste as well as recycling..
